The preliminary report is quite long, He says that under the present methods in the Nary Department, each bureau keeps its own set of books; that there is no uniform system among the issreaus, some being kept in double and some in single entry, and that none of them warrant any great praise. Railroad Backet.

New York, July 2 .- A special dispatch to the Post from Philadelphia says: It can be stated, upon the best authority, that the chief reason why A. J. Cassatt thus the chief reason why A. J. Cassatt declined to accept the proferred receivership of the West Shore Railroad, was because of an interview with members of the firm of Drexel & Go., who aivised him nut to take it, and informed him that they had absolute knowledge of the fact that Vanderbilt had for some time been acquiring West Shore securities, and that the property must eventually come into his control. It now seems that Mr. Cassatts declination is likely to result in patching an agreement between Pennsylvania & New York Central, under which the Vanderbilt interests will stop building latteral lines in the Clearfield region, and abandon the projected South Pennsylvania will not contest for the control of the West Shore, but will allow Vanderbilt interests on make it part of their system of zoads.

Unadulterated Lying. With its accustomed maliciou

and utter disregard of truth, the ne slandered and lied about Bishop Sharp and the Union Pacific yesterday morning. It said that the U. P. having sent to Bishop Sharp for carpenters to build the eating houses to be erected between Green River and Evanston, the build the eating houses to be erected between Green River and Evanston, the Bishop was sending none except Mormons who had first secured recommendations from their bishops, and who were fendorsed, not as good mechanics, or sober, industrious men, but as Saints in full fellowship and good standing in the church with the tithing accounts balanced." The fact that the statement appeared in the Tribune convinced intelligent people that it was absolutely false. The truth is that no applicant for employment has been asked concerning his religious belief. All of five carpenters have been sent to the Uniod Pacific, and it happens that three of these are Mormons, and two Gentiles. The reason that no more have been sent is that the Union Pacific advised Bishop Sharp to forward no more carpenters at present, as the lumber was coming in so slowly that they could not be employed. When the mechanics are required, they will be forwarded, and their religion will not be inquired into. It may be here penarked that the Gentile carpenters who have applied for employment in response to Bishop Sharp's call, are indignant over the mailedows and untruthful statement in the Tribune.
